

# ACEITDR Disaster Recovery

On-Site, Off-Site and Monitoring Backup Solutions.

Whether its today, tomorrow, next week or even next year. We all loose data at some point in time. The question is how important is that data to you.

43% of businesses never reopen again after a disaster and a further 51% close within 2 years. 6% of businesses will survive long-term after major IT disaster. This results in a majority of failed businesses. It is estimated that most businesses only spend between 2-4% of their IT budget on disaster recovery planning.

This is where ACEITDR Disaster Recovery (DR) can help you. Our job is to backup your data, store it securely and if you ever need it .. it will work every time. From four different plans that we offer depending on the level of backup and support that you want, we monitor all backups and ensure if there is a problem with your backup, we come tell you even before you need to use the backup.

ACEITDR Disaster Recovery can help you with:

- \* Store your backed up data remotely in our secure datacentre,
- \* Backed up data is securely stored in your own vault,
- \* Only you have access to your vault, noone can see your vault,
- \* Do bare-metal recovery onto new hardware,
- \* Move physical servers to virtual servers or vis-versa,
- \* Restore individual files or complete folders in case of accidental deletion,
- \* Maintain backups every hour on the hour,
- \* 24/7 monitoring and real-time notifications,
- \* Verify and collapse data in real-time,
- \* Do quarterly backup tests.

Service	Bronze	Silver	Gold	Platinum
24/7 Backup Monitoring	✓	✓	✓	✓
Data Verification	✗	✓	✓	✓
Data Consolidation	✗	✗	✓	✓
Data Collapsing	✗	✗	✓	✓
Off-Site Data Replication	✗	✗	✓	✓
Hot Start Server	✗	✗	✗	✓
<b>Cost</b>	<b>\$99 / month</b>	<b>\$198 / month</b>	<b>\$411 / month</b>	<b>\$710 / month</b>

- \* All prices are inclusive of GST,
- All the above plans come with all hardware and software at no additional cost,
- No upfront setup fees,
- Above plans are only on a 36 month term,
- Client must sign contract to commence on-site or off-site backup.

Below are some of our business partners that we use in our datacentre:

**IBM Corporation**  
Servers, Storage

**Intel Corporation**  
Servers, RAID Controllers

**VMWare Inc.**  
Virtualisation Platform

**Adaptec Inc**  
RAID Controllers

**Open-E**  
Datacentre Storage

**GeoTrust**  
SSL Certificates

**StorageCraft**  
Disaster Recovery Software

**Associated Computer Engineers**  
Disaster Recovery and Business Continuity Division

Suite 5.04, Level 5,  
365 Little Collins Street  
Melbourne, Victoria 3000
